### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: the claimed invention comprising a liquefied gas cavity, supporting frame, gas valve, gas lever, flint, two driving wheels having a larger diameter than a striking wheel, a shielding frame, a pair of safety guards and a wind shielding guard having a predetermined length that when gas is ignited to produce a lighter flame, a visible portion of the lighter frame is exposed to outside through a top flame gate while a root portion of a lighter flame is positioned below said top flame gate for preventing the flame from being blown out is not found in the prior art either singly or in combination. The closest prior art reference is considered Yang (US 6,123,541) which discloses a safety lighter but with a safety shield without a wind shielding guard. Other prior art references cited in this action are considered to disclose one or more features of the claimed invention, but no motivation or suggestion to combine those features to obviate the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Stephen Gravini whose telephone number is 571 272 4875. The examiner can normally be reached on normal weekday business hours (east coast time).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ira S. Lazarus can be reached on 571 272 4877. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
